

Keymax[®]

L A S E R C A R T R I D G E S

Print performance of Keymax Laser Cartridges is tested in accordance with

ISO 19752

for monochrome cartridges.

This ISO standard for determining the page yield of monochrome cartridges has been established at Keymax production facilities for many years.

Where applicable the test criteria described by this ISO standard is used and documented for print performance examination.

By doing this we make sure that the page yield of Keymax Laser Cartridges correspond to those of the original products.
