Customer Information regarding the Nordic Swan-Certification

Dear Customer,

thank you very much for buying a Laser Cartridge which is carrying the Nordic Swan Label version 5.1. Nordic Swan labelled Laser Cartridges are produced according to the strict Nordic ecolabelling directives. The use of the "Nordic Swan" is restricted to manufacturers who can prove that their production methods conform to the strict environmental criteria demanded by certification authorities. Each product group is subject to external audit and information is updated on a regular basis.

Technical criteria of Nordic Swan labelled Laser Cartridges:

- Toner cartridge certified with the Nordic Swan are remanufactured cartridges. Empty cartridges are collected from users, they are dismantled, cleaned, reassembled with new and reused parts.
- Each cartridge is quality tested before it leaves the factory, and at regular intervals sample cartridges are "lifetested" to measure the page yield and to make sure that the print quality is kept at a high level throughout the life time of the cartridge.
- Swan-labelled toner cartridges are engineered to emulate the quality and the page yield of the original cartridge.
- Each swan-labelled cartridge contains a dedicated installation guide, a warranty statement and information regarding collection/ recycling of empty cartridges.
- In case of any defective Laser Cartridge please contact us regarding the procedure.

Security advices for the use of Nordic Swan labelled Laser Cartridges:

- The toner powder which is used in this product during the installation and consumption of the cartridge is neither harmful to human health, nor does it contain any substances that are dangerous for the environment.
- Material Safety Datasheet according to EC legislation are available for each products. The sheets contain comprehensive security advices for the use of toner powder.

Recycling information for Nordic Swan labelled Laser Cartridges:

- The waste toner powder and other waste are collected and disposed of according to local/national environmental legislation.
- Please recycle your toner cartridge when empty and continue to save the environment by reducing unnecessary waste. For further information please find further within the packaging of this cartridge, contact us or our partners

For further questions or information regarding Nordic Swan or technical quality specifications please contact us.
